

9/30/2021 Email: Oakwood cleanup crews for October lake lowering; Community Yard Sale planned for 11/6

Hello Oakwood Lakes Neighbors,

We have a few community events coming up! We heard your feedback from the Neighborhood Survey and the Lake Zoom calls. This year we will be lowering the lake for the second time during the month of October, so that our residents can do property maintenance and organize **neighborhood clean-up crews**. This effort aligns with the Medford Township Brush and Leaf Collection Schedule. Please review the maps below to see the target community clean up spots and sign up through SignupGenius to volunteer to help. We will be clearing leaves, branches and other debris from our shorelines and lake. If your property is close to these target spots, please contact Shana Perrone (shanaanne@gmail.com) so that we can ensure that materials are cleared to an appropriate location near your property.

Yard Sale time! Ted Salkin will be organizing our community yard sale on Nov 6th. If you want to help, let us know. More details will follow.

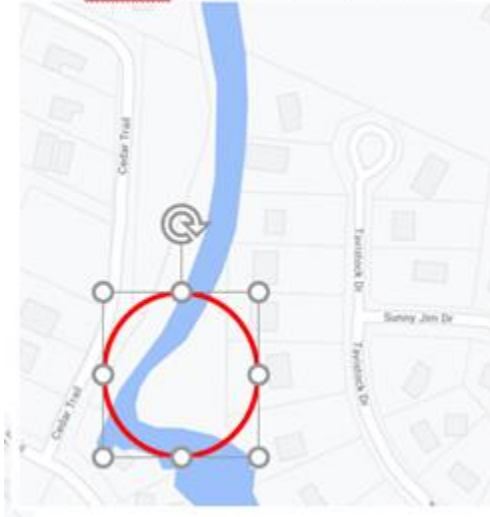

Haynes Creek

Elm Bridge gully at end of stream from Sherwood

End of Tavistock near island across from beach

Behind Taunton up from Cedar
